## The Legacy of Kedar Gupta: A Visionary Who Redefined Global Trade

**S**ome leaders build businesses; others reshape entire industries—but Kedar Gupta did both with unwavering passion. Born with a remarkable ability to spot opportunities where few saw them, he rose from modest beginnings as a bearing dealer in India to become a globally admired visionary.

He pioneered large-scale distribution of Eastern European bearings at a pivotal moment, fueling India's industrial growth. Seeking bigger opportunities, he boldly chose Dubai—then an emerging market—when most relied on Singapore or Hong Kong. That single decision transformed Dubai into a major industrial trading hub.

KG International soon flourished, forging strong alliances with European and Japanese brands. This success culminated in KG Bearings, a brand that left an indelible impact on the global bearing industry. Kedar Gupta also made his lasting mark in Dubai's luxury real estate sector, revealing an unmatched knack for turning vision into reality.

Despite building such an iconic empire, he is known today for his generous spirit—supporting education through the Maharaja Agrasen Institute, funding hospitals for the underprivileged and championing spiritual endeavors like the BAPS Hindu Mandir. His life stands as an enduring testament to kindness, innovation and unwavering resolve in shaping a better tomorrow.

## KG International FZCO

For over half a century, KG International has been at the forefront of transforming Dubai into a global bearing hub, forging a legacy of innovation and excellence in the automotive and industrial aftermarket. Through strategic partnerships with acclaimed global brands like NTN and Schaeffler, as well as its own KG brand, the company ensures that customers receive only the highest-quality products and services.

Recently, Mr. Rajeev Kumar had a meeting with Hon'ble Chief Minister of Uttar Pradesh Shri Yogi Adityanath in his office, where he apprised him of the various problems faced by the dairy industry. Mr. Rajiv Kumar spoke on two main points, in

which he highlighted the problems of milk producing farmers and dairy industry in Bulandshahr district. Regarding this, he told that once transportation and other issues are resolved, Bulandshahr district alone can facilitate the supply of milk in many parts of the country. In this district, milk production is higher and its quality is excellent. Milk, curd, ghee, buttermilk, paneer, flavored milk are being supplied from here to other states along with UP. At least 10 lakh liters of liquid milk is supplied daily from Bulandshahr alone to Delhi NCR and other areas. The second point of discussion was 12 percent GST on Desi Ghee. If this is reduced to five percent like its on milk powder, then there will rise in business as well as in revenue. This will also help farmers to sell their liquid milk at reasonable prices. The meeting was positive because Hon'ble Chief Minister assured to consider every aspect very carefully.

The company, with the objective of spoiling the consumers for choice, soon came up 2 novel products in the form of "**Continental Sauce**" and "**All -Time Snack Sauce**" in addition to the already established Tomato Ketchup, which became a rage.

At the organizational level, he laid down the corporate philosophy on the guiding principles of Honesty, Fairness, and Integrity that served as a bedrock of the ecosystem where all the right practices flourished. This further helped in fostering an enabling work environment centered on the basic tenets of Passion, Performance, and Innovation, with a strong emphasis on customer delight.

All these moves bolstered the motivation of the employees within that helped in catapulting the brand into the big league in the Indian Food Processing Industry. Today, the brand has a diversified portfolio of Tomato Ketchups, Jams, Cornflakes, Spice Sprinklers, Plain Noodles, Instant Noodles, Culinary Sauces, Pickles, Cake Mixes, and many more.
